Customer Reviews Average Rating:

Rating: - Mini ball polisher

This is a great product to get into those small areas on auto rims requiring polishing. I've used the big polishing ball and it works great.

Rating: - mini powerball yeah

product is easy to use, it works well although it doesn't get into the creases of my stock BMW wheels

Rating: - If you have Billet Wheels this is it

The powerball products work well, if you have wheels and other billet goodies this will become your best buddy!

Rating: - husband gift

My husband was very happy to receive this gift. He loves the Mothers products.
